

LAPEER COUNTY ROAD COMMISSION
PERSONNEL AND OPERATIONS POLICY MANUAL

Policy Subject:	TRUCK REGULATIONS / ALL WEATHER ROUTES		
Authorized by Board of Road Commissioners	Date:	09/19/1989	
Amended	Date:	10/22/2008	

STATEMENT OF POLICY

This policy is intended to state all Lapeer County Road Commission (LCRC) truck regulations that differ from the Michigan Vehicle Code.

The LCRC maintains a small amount of primary roads referred to as “Class A All Weather Roads.” On such roads, the LCRC allows size and weight requirements as described for designated state routes in the Michigan Vehicle Code. These routes are also not subject to frost law restrictions.

All other roads under LCRC jurisdiction are referred to as “Class B Seasonal Roads.” Size and weight shall be in accordance with the Michigan Vehicle Code for non-designated routes. Such routes are subject to frost law restrictions. All postings restricting vehicles on such roads shall be obeyed.

Trucks carrying loads or equipment to or from a location for the LCRC may use the “Class A” size and weight requirements if approved by the LCRC.

Variations from this policy shall be by LCRC permit or written permission only.
